RE: Civil Action No. 3:18-cv-1120, and 3:16-cv-644

Dear Sir:

This is letter in reference to the above referenced case, and the Order, and Opinion filed on June 8, 2018. I am a pro se litigant, not a licensed attorney; and so I know my rights but, not all the particular nuances, and procedure of the law. However, I think that it is a due process violation that I was not given notice or opportunity to appeal.

And, thus I write to you, as I, do not know for certain; the exact rules. I alleged crimes, and obstruction of justice in my complaint. I specifically laid out the causes of action/theory of Deliberate Indifference, State Created Danger, and I specifically detailed an Unconstitutional Policy/Custom, both in the complaint, and supporting exhibits. All of this was allowed to happen within a conspiracy of silence, and included conscious shocking behavior, by those Acting Under Color of State Law, and there agents.

It is my humble opinion that in the interest of justice, and public interest the suit should be allowed back in. As how, could I, be expected to exhaust when I was transferred the next day from a county jail to a state prison with two totally different grievance procedures.

No grievances were available at hand. Not to mention they covered up crimes, and committed other acts; some mentioned some not in the complaint to thwart me. I feel that this would qualify as extraordinary circumstances to allow for the excuse non-exhaustion.

Thank you very much for your time have a wonderful day.

Respectfully,

Anthony Vone Caiby

P.S. Did you get the proof brief of last week? I, am still under renal/neural control, and the other library is closed so I might have to file hand written documents as word-processors are limited with only one library open.
